i:CARE

Training Health Care Providers to
Recognize and Care for Domestic
Minor Sex Trafficking Victims

e-Learning

sharedhope.org/charlicourses

CHARLI is our interactive online platform for webinars and self-paced training, delivering collaboration, advocacy, resources, and learning on juvenile sex trafficking.

i: CARE is an interactive, self-paced e-learning course designed to improve identification and response to victims of sex trafficking within various health care settings.

- Created by professionals in acute care, mental health and emergency services
- Peer reviewed by experts in the effects of trauma
- Offers a comprehensive understanding and practical examples of domestic minor sex trafficking
