

Report Cards on Child & Youth Sex Trafficking

State Action. National Change.

KENTUCKY

The Report Cards on Child & Youth Sex Trafficking Advanced Legislative Framework builds on the original Protected Innocence Challenge Framework, preserving the most fundamental components while including new policy priorities that reflect feedback and research from the field—particularly in the area of victim protections. The advanced framework will be used to grade the states next fall when we release the inaugural Report Cards on Child & Youth Sex Trafficking. As such, the 2021 legislative session is a critical time for your state to strengthen its laws before report cards and corresponding grades are issued.

So what is **KENTUCKY**'s current score and what changes are needed? As of August 1, 2019, **KENTUCKY HAD RAISED ITS GRADE FROM D TO B:**

KENTUCKY

2019	SCORE	GRADE	10	20.5	15	6	23	12.5
	87	B	10	25	15	10	27.5	15
								
2011	SCORE	GRADE	7.5	11	14.5	5.5	16.5	10
	65	D	10	25	15	10	27.5	15

Kentucky's trafficking law includes any child who is bought for sex regardless of whether force, fraud or coercion is used, regardless of whether a buyer exploited

the youth without a trafficker's involvement, and regardless of whether the victim identifies a trafficker. State law prohibits a minor from being prosecuted for prostitution. Instead, commercially sexually exploited youth are directed to specialized services through child welfare.

To support implementation of the Report Cards on Child & Youth Sex Trafficking Advanced Legislative Framework, our Policy Team will remain available to provide rapid, technical assistance to support legislators, advocates, and state agencies; technical assistance requests can be submitted [here](#).
