

The Report Cards on Child & Youth Sex Trafficking Advanced Legislative Framework builds on the original Protected Innocence Challenge Framework, preserving the most fundamental components while including new policy priorities that reflect feedback and research from the field—particularly in the area of victim protections. The advanced framework will be used to grade the states next fall when we release the inaugural Report Cards on Child & Youth Sex Trafficking. As such, the 2021 legislative session is a critical time for your state to strengthen its laws before report cards and corresponding grades are issued.

So what is **PENNSYLVANIA’S** current score and what changes are needed? As of August 1, 2019, **PENNSYLVANIA HAD RAISED ITS GRADE FROM F TO B:**

PENNSYLVANIA

2019	SCORE	GRADE	10	19.5	15	7	19	15
	85.5	B	10	25	15	10	27.5	15
								
2011	SCORE	GRADE	2.5	16	9.5	3	12.5	12
	55.5	F	10	25	15	10	27.5	15

Pennsylvania law criminalizes sex trafficking without requiring use of force, fraud, or coercion when the victim is a minor, and buyers of sex with minors face penalties

under the human trafficking chapter regardless of trafficker-involvement. Further, state law prohibits the criminalization of child sex trafficking victims for certain prostitution-related offenses and provides for a specialized service response.

To support implementation of the Report Cards on Child & Youth Sex Trafficking Advanced Legislative Framework, our Policy Team will remain available to provide rapid, technical assistance to support legislators, advocates, and state agencies; technical assistance requests can be submitted [here](#).
