

Report Cards on Child & Youth Sex Trafficking

State Action. National Change.

GEORGIA

The Report Cards on Child & Youth Sex Trafficking Advanced Legislative Framework builds on the original Protected Innocence Challenge Framework, preserving the most fundamental components while including new policy priorities that reflect feedback and research from the field—particularly in the area of victim protections. The advanced framework will be used to grade the states next fall when we release the inaugural Report Cards on Child & Youth Sex Trafficking. As such, the 2021 legislative session is a critical time for your state to strengthen its laws before report cards and corresponding grades are issued.

So what is **GEORGIA'S** current score and what changes are needed? As of August 1, 2019, **GEORGIA HAD RAISED ITS GRADE FROM C TO A:**

GEORGIA

2019	SCORE	GRADE	10	24.5	15	7.5	24.5	14.5
	96	A	10	25	15	10	27.5	15
								
2011	SCORE	GRADE	7.5	22.5	14	4.5	18.5	8
	75	C	10	25	15	10	27.5	15

Georgia has comprehensive human trafficking and commercial sexual exploitation of children (CSEC) laws that can be used to combat demand. Further,

state law prohibits the criminalization of minors for prostitution offenses and provides juvenile sex trafficking victims with a statutory avenue to specialized services.

To support implementation of the Report Cards on Child & Youth Sex Trafficking Advanced Legislative Framework, our Policy Team will remain available to provide rapid, technical assistance to support legislators, technical assistance requests advocates, and state agencies; can be submitted [here](#).
