

Report Cards on Child & Youth Sex Trafficking

State Action. National Change.

MISSOURI

The Report Cards on Child & Youth Sex Trafficking Advanced Legislative Framework builds on the original Protected Innocence Challenge Framework, preserving the most fundamental components while including new policy priorities that reflect feedback and research from the field—particularly in the area of victim protections. The advanced framework will be used to grade the states next fall when we release the inaugural Report Cards on Child & Youth Sex Trafficking. As such, the 2021 legislative session is a critical time for your state to strengthen its laws before report cards and corresponding grades are issued.

So what is **MISSOURI**'s current score and what changes are needed? As of August 1, 2019, **MISSOURI HAD MAINTAINED ITS GRADE OF B:**

MISSOURI

2019	SCORE	GRADE	10	23	15	9.5	20	12
	89.5	B	10	25	15	10	27.5	15
								
2011	SCORE	GRADE	7.5	22	12.5	8.5	20.5	11
	82	B	10	25	15	10	27.5	15

Missouri criminalizes child sex trafficking without requiring use of force, fraud, or coercion or third party control. Further, the definitions of abuse and

neglect specifically include child sex trafficking. However, specialized services are not statutorily mandated, and state law does not prohibit the criminalization of minors for the crime of prostitution.

To support implementation of the Report Cards on Child & Youth Sex Trafficking Advanced Legislative Framework, our Policy Team will remain available to provide rapid, technical assistance to support legislators, advocates, and state agencies; technical assistance requests can be submitted [here](#).
