

Report Cards on Child & Youth Sex Trafficking

State Action. National Change.

TEXAS

The Report Cards on Child & Youth Sex Trafficking Advanced Legislative Framework builds on the original Protected Innocence Challenge Framework, preserving the most fundamental components while including new policy priorities that reflect feedback and research from the field—particularly in the area of victim protections. The advanced framework will be used to grade the states next fall when we release the inaugural Report Cards on Child & Youth Sex Trafficking. As such, the 2021 legislative session is a critical time for your state to strengthen its laws before report cards and corresponding grades are issued.

So what is **TEXAS's** current score and what changes are needed? As of August 1, 2019, **TEXAS HAD RAISED ITS GRADE FROM B TO A:**

TEXAS

2019	SCORE	GRADE	10	25	15	7.5	18.5	15
	91	A	10	25	15	10	27.5	15
2011	83.5	B	7	23	14	7	17.5	15

Texas's trafficking of persons offense includes any child who is bought for sex regardless of whether force, fraud, or coercion was used and

regardless of whether a buyer exploited the youth without a trafficker's involvement. State law does not prohibit the criminalization of minors for prostitution, but specialized services are available under the Governor's Program for Victims of Child Sex Trafficking.

To support implementation of the Report Cards on Child & Youth Sex Trafficking Advanced Legislative Framework, our Policy Team will remain available to provide rapid, technical assistance to support legislators, advocates, and state agencies; technical assistance requests can be submitted [here](#).
