

Report Cards on Child & Youth Sex Trafficking

State Action. National Change.

ILLINOIS

The Report Cards on Child & Youth Sex Trafficking Advanced Legislative Framework builds on the original Protected Innocence Challenge Framework, preserving the most fundamental components while including new policy priorities that reflect feedback and research from the field—particularly in the area of victim protections. The advanced framework will be used to grade the states next fall when we release the inaugural Report Cards on Child & Youth Sex Trafficking. As such, the 2021 legislative session is a critical time for your state to strengthen its laws before report cards and corresponding grades are issued.

So what is **ILLINOIS**'s current score and what changes are needed? As of August 1, 2019, **ILLINOIS HAD MAINTAINED ITS GRADE OF B:**

ILLINOIS

2019	SCORE	GRADE	10	20.5	14.5	7.5	19	15
	86.5	B	10	25	15	10	27.5	15
								
2011	SCORE	GRADE	7.5	16	14	7	25.5	10
	80	B	10	25	15	10	27.5	15

Illinois's trafficking law does not require use of force, fraud, or coercion when the victim is a minor, but not all commercially sexually exploited children are

defined as juvenile sex trafficking victims because third party control is required to establish the offense. Minors are protected from prosecution for prostitution, law enforcement must report exploited youth to child welfare as suspected human trafficking victims, and state law provides for specialized placements.

To support implementation of the Report Cards on Child & Youth Sex Trafficking Advanced Legislative Framework, our Policy Team will remain available to provide rapid, technical assistance to support legislators, advocates, and state agencies; technical assistance requests can be submitted [here](#).
