

# Report Cards on Child & Youth Sex Trafficking

State Action. National Change.

# MONTANA

*The Report Cards on Child & Youth Sex Trafficking Advanced Legislative Framework builds on the original Protected Innocence Challenge Framework, preserving the most fundamental components while including new policy priorities that reflect feedback and research from the field—particularly in the area of victim protections. The advanced framework will be used to grade the states next fall when we release the inaugural Report Cards on Child & Youth Sex Trafficking. As such, the 2021 legislative session is a critical time for your state to strengthen its laws before report cards and corresponding grades are issued.*

So what is **MONTANA'S** current score and what changes are needed? As of August 1, 2019, **MONTANA HAD RAISED ITS GRADE FROM F TO A:**

## MONTANA

2019	SCORE	GRADE	8.5	25	15	7.5	26	15
	97	A	10	25	15	10	27.5	15
2011	56	F	3.5	14.5	12.5	6	12	7.5
			10	25	15	10	27.5	15

Montana's child sex trafficking laws do not require force, fraud, or coercion and reach buyers, traffickers, and facilitators, imposing steep penalties for convictions.

Child sex trafficking victims are not criminally liable for prostitution, promoting prostitution, and nonviolent offenses and may access specialized services and state benefits, including crime victims' compensation.

To support implementation of the Report Cards on Child & Youth Sex Trafficking Advanced Legislative Framework, our Policy Team will remain available to provide rapid, technical assistance to support legislators, advocates, and state agencies; technical assistance requests can be submitted [here](#).
