

Report Cards on Child & Youth Sex Trafficking

State Action. National Change.

NEBRASKA

The Report Cards on Child & Youth Sex Trafficking Advanced Legislative Framework builds on the original Protected Innocence Challenge Framework, preserving the most fundamental components while including new policy priorities that reflect feedback and research from the field—particularly in the area of victim protections. The advanced framework will be used to grade the states next fall when we release the inaugural Report Cards on Child & Youth Sex Trafficking. As such, the 2021 legislative session is a critical time for your state to strengthen its laws before report cards and corresponding grades are issued.

So what is **NEBRASKA’S** current score and what changes are needed? As of August 1, 2019, **NEBRASKA HAD RAISED ITS GRADE FROM F TO A:**

NEBRASKA

2019	SCORE	GRADE	10	24	12	7.5	23	14.5
	91	A	10/10	24/25	12/15	7.5/10	23/27.5	14.5/15
2011	SCORE	GRADE	5	14	10	3.5	10.5	9.5
	52.5	F	5/10	14/25	10/15	3.5/10	10.5/27.5	9.5/15

Nebraska law criminalizes child sex trafficking without requiring proof of force, fraud, or coercion or third party control, prohibits the criminalization of minors for

prostitution offenses, and provides for a specialized response through child welfare. However, sex offender registration is required for offenders convicted of CSEC offenses, but not sex trafficking.

To support implementation of the Report Cards on Child & Youth Sex Trafficking Advanced Legislative Framework, our Policy Team will remain available to provide rapid, technical assistance to support legislators, technical assistance requests advocates, and state agencies; can be submitted [here](#).
