Report Cards on
Child & Youth Sex Trafficking
State Action. National Change.

OREGON

The Report Cards on Child & Youth Sex Trafficking Advanced Legislative Framework builds on the original Protected Innocence Challenge Framework, preserving the most fundamental components while including new policy priorities that reflect feedback and research from the field—particularly in the area of victim protections. The advanced framework will be used to grade the states next fall when we release the inaugural Report Cards on Child & Youth Sex Trafficking. As such, the 2021 legislative session is a critical time for your state to strengthen its laws before report cards and corresponding grades are issued.

So what is **OREGON'S** current score and what changes are needed? As of August 1, 2019, **OREGON HAD RAISED ITS GRADE FROM D TO B**:

OREGON			10	21	15	7.5	17.5	14.5
2019	SCORE 85.5	GRADE B	10	25	15	10	27.5	15
2011	SCORE 60.5	GRADE D	2.5	12	13	4	17	12
			10	25	15	10	27.5	15

Oregon's trafficking in persons law applies to buyers of sex with minors without requiring proof of force, fraud, or coercion or third party control. However, state law does not prohibit the criminalization of minors for prostitution offenses, nor does it provide juvenile sex trafficking victims with a statutory avenue to services that are responsive to the unique trauma and harms associated with trafficking victimization.

To support implementation of the Report Cards on Child & Youth Sex Trafficking Advanced Legislative Framework, our Policy Team will remain available to provide rapid, technical assistance to support legislators, advocates, and state agencies; technical assistance requests can be submitted here.
